SKILLS

- Cloud platform architecture
- Kubernetes & Talos
- Infrastructure as Code
- GitOps & CI/CD
- Observability
- Python development

TRAINING

2022	ArgoCD
2020	Kubernetes, Docker, Terraform
2020	Ansible
2019	Python
2019	English, Wall Street English
2019	Spanish, Arca delle Lingue
2017	Nimble Storage certification
2016	ZFS, Cisco Nexus
2011	Bachelor's degree in wireless and broadband networks

Cyril Ohanian

Senior Platform Engineer & DevOps

PROFILE

Infrastructure engineer with 14 years of experience, including 6 years designing and running Kubernetes clusters. I build the platform and the tooling that make production reproducible: provisioning, configuration and application packaging written as code, continuous deployment with GitOps, observability and disaster recovery. I don't manage servers by hand, I build the chain that manages them for me.

EXPERIENCE

Senior Platform Engineer

Oct 2024 — Present

Enovacom

Kubernetes platform and automation chain for a healthcare software company, on a private cloud certified HDS, the French standard for health data hosting.

Kubernetes, Talos, Cilium, Ansible, ArgoCD, GitLab CI/CD, Helm, Ceph, S3, Prometheus, Thanos, Grafana, Loki, PostgreSQL, Python

DevOps Engineer

Oct 2021 — Oct 2024

Association Cocktail

Infrastructure as code, development and integration on the PC-SCOL project. More than 300 application instances across several clusters.

Kubernetes, Terraform, Helm, OpenStack, S3, Talos, RKE, Docker, Jenkins, ArgoCD, Python, Bash, Grafana, Prometheus, Loki, PostgreSQL, MongoDB

Linux System Administrator

Feb 2019 — Oct 2021

FraudBuster

Development of production tools and day-to-day operations, international assignments at telecom operators.

Python, GitLab, Ansible, SaltStack, Debian, Jenkins, Vagrant, MariaDB, Redis, Nginx, Icinga, Grafana, Netfilter

Systems and Network Administrator

Oct 2014 — Feb 2019

iXblue

In charge of the network, system and telephony infrastructure of three sites in La Ciotat and one site in Besançon: virtualization, storage, backup, monitoring and network security.

Cisco Nexus, HP Procurve, VMware ESXi, Nimble Storage, Debian, Netfilter, OpenVPN, Veeam, Nagios, Observium, Active Directory

HOBBIES

Bass guitar and double bass.
